Comparing like with like: All of our prices for non-professional courses are fully inclusive (including materials, certification fees, dive site entrance fees, equipment for entry level courses, and air - save for helium and entrance fees on our TDI technical diving courses), provided that you complete your course in your assigned sessions. Our PADI Open Water Diver courses include dry suit training and use as standard, and with no extra charge. Our students get free access to periodic refresher sessions in the area of training completed. No hidden extras or nasty surprises.
